

Hydrolyzed Marine Collagen Powder

Icelandic Oceanic Treasure

Nordwell promotes hydrolyzed marine collagen powder that utilizes Iceland's untamed marine resources to ensure superior supplement purity.

With a long-standing history in Iceland's food supplement industry, we at Nordwell and our partners leverage **extensive experience** and **advanced technology** to set new benchmarks in marine collagen quality. Our dedication ensures we deliver high-purity, bio-active ingredients with excellent organoleptic properties suitable for use in a wide range of nutraceuticals, functional food and as a dietary supplement.

Premium Marine Collagen Powder

- Color: White
- Odor and taste neutral
- High solvability
- Protein content (N*5.55), >94%

Standard Marine Collagen Powder

- Color: Creamy white
- Mild odor and taste
- High solvability
- Protein content (N*5.55), >94%

Nordwell's two state-of-the-art facilities on Iceland's North and South coasts are located near prime fishing grounds. **Certified by BRCGS and HACCP**, they ensure consistent quality and business continuity. We source the freshest, most sustainable ingredients from MSC-certified vessels.

At the heart of everything we do are three fundamental pillars: Uncompromising Quality, Responsible Sustainability, and Cutting-Edge Innovation. These principles guide us in delivering superior products while minimizing environmental impact.

Marine collagen powder consumption may provide:

- Joint health support
- Increased gut health
- Increased bone density
- Improved skin health
- Enhanced hair and nail growth
